**ELECTION SYSTEM OF THE VIRGIN ISLANDS
HAVA TITLE 1 SEC. 101(b)
NARRATIVE REPORT
JANUARY 1, 2006 – DECEMBER 31, 2006**

This narrative report details a description of activities based on the HAVA State Plan for the Territory of the United States Virgin Islands:

COMPLYING WITH REQUIREMENTS OF TITLE 111 - \$200,052

A major requirement of Title 111 is the implementation of a computerized statewide voter registration list. Through contractual services with Election System and Software we have gone live with our new statewide registration system. There are a few features that require tailoring to meet the specific needs of local legislation, and that is in progress. The funds expended this year included software licenses, additional equipment, staff training and web conferencing. This project will continue into the next calendar year and will be incorporated with the work of another contractor who provides technological and monitoring services of our network system.

2007 FEB 27 AM 9:33

The Statewide Computerized Voter Registration List is described in the HAVA State Plan on pages 22-31.

ELECTION ADMINISTRATION - \$176,490

The Election System of the Virgin Islands established two positions to provide coordination for HAVA related activities. These employees are responsible for monitoring projects, ensuring compliance and providing oversight for management of contracts under these programs. During this calendar year, one of our positions was transferred to the local Virgin Islands Budget. Salary adjustments were also made to reimburse the state for administrative services provided by the Supervisor and Deputy Supervisor of Elections.

Contractual services were procured from Star Consultants who provides a combination of services. These services crossed the categories of administration and education as they monitored our network system and assisted with the expansion of our WEB site.

Other associated expenditures included the translation of documents, providing instructions to voters, from English to Spanish.

These activities are described in the V. I. State Plan on page 39-40 & 43.

NARRATIVE – 2006

VOTER EDUCATION - \$9,737

Our Voter Education Program was highlighted by a media blitz which aired a variety of spots designed to encourage citizens to register and participate in the election process. We included specific focus that informed individuals with disabilities of opportunities to exercise their rights in an independent manner.

Other education activities included:

Voting system demonstrations at strategic locations throughout the community.

News publication of election calendar of events, notice of candidates and sample ballots.

Conducted Voter Registration Drives

Designed (with logo) and graphed vinyl posters with complete voter information to display at all polling sites.

Voter Education is described in the V. I. State Plan on Pages 15-18

TRAINING - \$14,000

The Election System contracted with the University of the Virgin Islands to begin revamping our Poll Worker Manual and making it more user friendly, and to assist with general training of poll workers. The manual is 50% completed. The first phase of our training component began during this calendar year with assessment meetings with staff, board and poll workers. The second phase will include public forums to receive input from the general public and identify the critical areas of need. As part of our training efforts we developed a Poll Worker Facilitator (a pilot project) to assist poll workers with facilitating the process in efforts of reducing poll waiting time and offering electors a better experience at the polls. These projects will continue in 2007.

Training is outlined in the V. I. State Plan on pages 32-33

INTEREST ACCRUED - \$31,953

For the current report period \$31,953 was accrued in interest.
